Summer Assignment Rationale	In order to cover over 600 years of European History in 8 months, we must get off to a running start! We start with the Renaissance around the year 1450 C.E. So that you may accurately appreciate the remarkable events that occurred in Europe during this era, and its impact on the world, all of you need to know what and who came before that time; what inspired these revolutionary changes in thought and action. The summer assignment will help you acquire some of this needed information.

Summary of Assignment	<p>The student will:</p> <ol style="list-style-type: none"> 1. Complete all work by due dates! 2. Communicate with teacher throughout the summer of any concerns or questions. 3. If student doesn't complete summer work, it will be suggested that the student not enroll in the course. The summer work helps our class to cover content that the teacher doesn't have time to complete at beginning of school year. Ultimately, the summer work saves us time! The student that doesn't complete the summer work is doing a disservice to the rest of the class if they don't complete the work. 4. Have a fun APEH experience! ☺
