

<b>Course Name</b>	Advanced Placement Physics 1
--------------------	------------------------------

<b>Instructors</b>	W.Warren
--------------------	----------

<b>Instructor Contact Info.</b>	wwarren@salemk12.org
---------------------------------	----------------------

<b>Summer Assignment Rationale</b>	To introduce students to the methods of approach in physics. Also, the summer work will introduce linear motion, both constant and accelerated, to the students so that we can hit the ground running in September.
------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>Summer Communication Expectations</b>	The student will . . .  Complete five online problem sets spaced two weeks apart each.	<b>Target Dates</b>
		July 5 July 19 August 2 August 16 August 30
	The teacher will . . . Be available to help online via email all summer.	<b>Target Dates</b>

<b>Summary of Assignment</b>	<p>The student will:</p> <ol style="list-style-type: none"><li>1. Read Chapters one and two in their textbook.</li><li>2. Complete five assignments on Webassign.</li></ol>
------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>Attachments and Materials Needed to Complete Assignment</b>	<p style="text-align: center;">AP Physics I 2018-2019 Summer Assignments</p> <p>Success on the Advanced Placement Physics exam can only be achieved through rigorous study and preparation. As such, the coursework will start immediately. During the summer months you will complete five assignments online. In order to complete these assignments you will need a</p>

student account on [www.webassign.net](http://www.webassign.net). This will cost you \$10.50. If cost is a serious problem for anyone please see me privately and we will make the necessary arrangements.

To sign up for web assign:

- 1.) Go to <http://www.webassign.net>
- 2.) Click "Enter Class Key" (upper right corner of page)
- 3.) Enter your class key:

F Period: **saalem.ma 9940 2425**

H Period: **saalem.ma 5326 1017**

If you do not know which section you're in that's fine: sign up for either one and I will move you to the proper section.

- 4.) Follow the instructions to set up your account.

**Assignment one is on line now and is due before 11:00 PM on July 5<sup>th</sup>.** Do not wait to start this or any other assignment. They are tricky and often difficult. You will want to start as soon as possible so as to maximize the amount of time you have available to work on the questions. Feel free to contact me via email with any questions; my email address is [williamwarren@saalemk12.org](mailto:williamwarren@saalemk12.org). Web Assign has an internal messaging service but I don't check it daily during the summer- you'll get faster responses if you email me with your questions.

Assignment two will show up on Web Assign on July 5<sup>th</sup> at 11:00 PM and will be due on July 19<sup>th</sup> by 11:00 PM.

Assignment three will show up on July 19<sup>th</sup> at 11:00 PM and will be due on August 2<sup>nd</sup> by 11:00 PM.

Assignment four will show up on August 2<sup>nd</sup> at 11:00 PM and will be due on August 16<sup>th</sup> by 11:00 PM.

Assignment five will show up on August 16<sup>th</sup> at 11:00 PM and will be due on August 30<sup>th</sup> by 11:00 PM.

In rare circumstances I will consider extending assignment due dates on a case-by-case basis; email me if you need an extension.

If you do the summer work as it shows up and work on it over the two-week period before it comes due you will have no problem and things will go smoothly. **All the subjects are covered fully in your textbook and you should be doing the reading as you move along.** However, if you wait until the day the assignment is due you will cause yourself great stress and, quite likely, earn poor grades. Pace yourself. Ask questions. This is good stuff, but it takes thought and work.
